Enactment of this legislation broadens the permissible uses of school lunch revenues, but does not affect the total amount of state expenditures for this program. Should local education agencies decide to provide more school meals to students, the State Board of Education would be able to draw down additional federal funds for the increased costs, as the state match is fixed and is met each year.

Notes on Notes

Fiscal notes estimate the direct costs or revenues of enacting a bill. The Legislature uses them to balance the budget. They do not measure a bill's benefits or non-fiscal impacts like opportunity costs, wait times, or inconvenience. A fiscal note is not an appropriation. The Legislature decides appropriations separately.
